

SKID/TRAILER MOUNTED WIRELINE UNIT

*Fully Airconditioned Highly Insulated Cabin
Equipped with rigid Carbon Steel Tube Chassis Frame*

*Powered by 62Kw/86bhp Perkins
Power Pack Engine*

*4 Easy Door Access for Engine and
Battery Maintenance*

MEASURING WHEEL SYSTEM - "SHARK"

Cable Sizes - .092 - .125 Slickline & 3/16 E-line
Tension Load axle & amplifier can be configured to different outputs
Can measure wireline tension up to 4500 pounds
Anodized Aluminum Frame
Larger diameter wheel radius minimize wire fatigue
2 Fully Independent depth measurements optical encoder & magnetic pickup

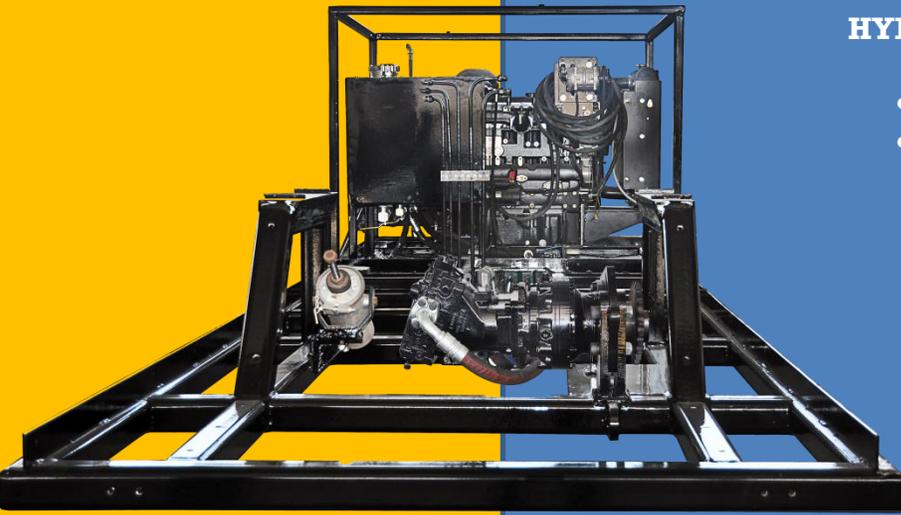

WINCH SYSTEM - SINGLE DRUM

Chain Drive System
0.108 - 0.125 Drum Capacity
Reduction Gear for Double Chain Drive
Pneumatic Drive Band Brake

HYDRAULIC DRIVE SYSTEM

- Closed loop Hydraulic System
- Variable displacement Axial Piston HYD Pump 55cc Power Pack Driven

- Variable Displacement HYD Motor 80cc
- Control Reducing Valves, Oil Filter Integrated
- Pilot Operated Control Valve, Uphole Valve Integrated
- Oil Cooler Integrated

- Winch Operator Analog Panel designed to acquire and display depth and tension from a wireline winch
- Winch Control and Drum Brake Integrated on the Panel
- Hydraulic Pressure Control Integrated on the Panel
- Switches and Fuses Integrated in the Panel

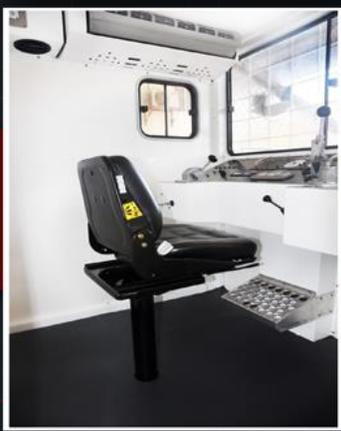

CONTROL PANEL - DASHBOARD

- System and Charge Pressure Gauge & Engine Monitor Integrated
- Engine Start and Emergency Stop & Hour Meter Included
- System Unload Pump
- Respooler Control
- Black Hard aluminum material with markings engraved on it

With File Drawer, Laptop table and personnel seater bench

*With 3 (4 LED ceiling Lights
Equipped with comfortable operator's seat*

OPERATOR'S CABIN

*Equipped with First Aid kit for 25 persons and
Fire Extinguisher
Sliding Proof Cabin Floor*
