

Arabian Crane Services L.L.C.
Custom Desinged Slickline Trucks
 Slickline 9125 WL | **NATIONAL CRANE**
 900A Series

SPECIFICATIONS

TRUCK

Renault Keraxx
 Gvw kg. 40,000kg
 Engine DXI 11;279 kw (379 hp)
 Gearbox ZF16S
 Double Output Power Take-Off

CRANE

National Crane 9125 WL (900A series)
 rear mouted to maximize rig up height and capacity,
 125 ft. (38.1m) Boom Length
 Maximum load capacity 23,550 kg
 3,300 kg (3.3ton) @ 38m Boom length; 7.6m Radius
 Safe load indicator and Anti 2 Block
 3 Stage Gear Hydraulic Pump driven by Truck PTO
 Main and Auxiliary Winch
 Hydraulic Air Cooler

CABIN

High Insulated, Truck engine control from cabin
 Digital display engine monitor, Electronic joystick controls hydraulic pump and motor
 Two (2) hydraulic drive Air condition
 Intercom system, Cupboard storage, refrigerator
 BOP and safety valve control panel
 Air driven hydraulic pump and back up hand pump
 Accumulator 20l, Two(2) Hydraulic Tanks
 Hose reeling drum air driven (fixed behind the truck)
 Safety valve panel controls Down hole Safety Valve (DHSV),
 Hydraulic Master Valve (HMV), Wing Valve (WV)

WIRELINE UNIT

Carbon steel chassis, 180° rotation
 Rear bench removable with crane includes toolbox, wise and BOP storage
 Tool storage with airbag and drawer for small tools

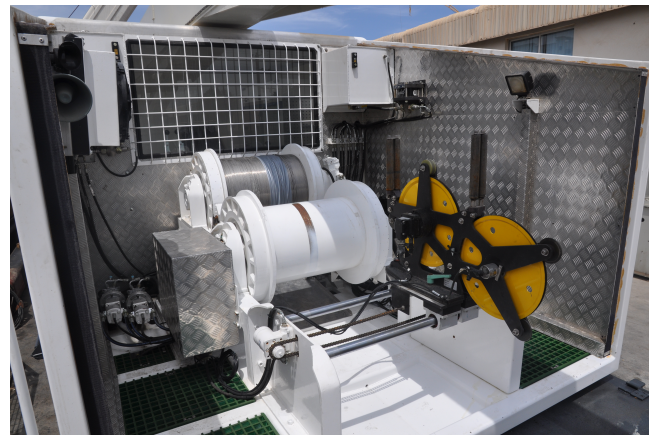

PRESSURE Transducer with reel drum -Benchmark
Winch Hydraulic Drive
 Hydraulic pump driven by truck PTO
 Closed llop hydraulic system, constant slow speed
 Direct drive system
 Hydraulic oil cooler

Hydraulic Driven Generator

7kva 240v 50hz output
 *Lubricator support can be fitted

Depth tension speed measurement - (benchmark system)
 AMS4A099 touchscreen, water proof, zone 2

DRUM TYPE - BenchMark

Split slickline drum x 3. 0.108" carbon steel
 0.125" carbon steel 0.108' stainless steel
 Split e-line drum x 2 5/16" and 7/32"

MEASURING HEAD - Benchmark

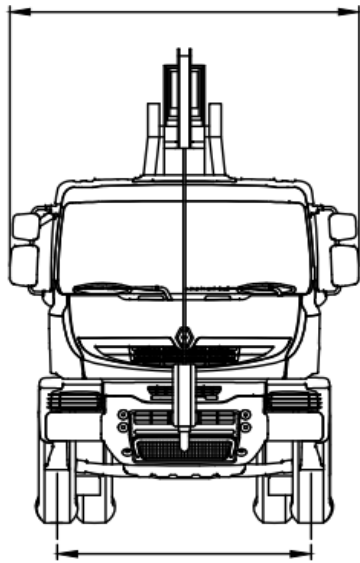

AMSA500 mako dual wheel integrated depth and tension
 for slick line .092 - .160; braided line 3/16" - 5/16"
 Wire Spooler Guide controlled by hydraulic joystick
